Language B- Spanish 1B- is a year that focuses on encouraging active student participation by providing and requesting information in both spoken and written context. Students will actively engage in oral production using comprehensible pronunciation and intonation. They will take part in formal and informal exchanges related to the Areas of Interaction and to cultural and international issues.

AP SPANISH LANGUAGE- is the same as Spanish 1B but at a college level. If student passes the course he/she will receive four high-school credits. If they receive above a 3 on the AP exam, they receive college credit.

I joined the Lanier faculty in 1996. I am very grateful that I have had the opportunity to work at such a great school where the faculty and parents are dedicated to the advancement of all students.

I have a wonderful husband and three daughters and a granddaughter, Luna Rose. My happiest moments are when I am with my family and friends. I love to travel and read.
