Purple Day	Red Day
P1—Texas History	R1—Texas History
P2— Texas History	R2—Cluster Planning
P3— Texas History	R3— Texas History
P4— Grade Level Planning	R4—IB Coordinator

In Texas History class we will study the past events of Texas to help build technical, analytical, decision making, and investigative skills. We will explore the following areas of humanities in Texas: geography, history, economics, politics, and civics. By the end of the year, students will be able to use humanities terms, understand the concept of time as a continuum of significant events of the past through the study of people, issues, events, cultures, and societies, as well as understand the significance of place, space, change, and systems in Texas. We will also investigate the concept of global awareness, because understanding our own culture enables us to better understand the culture of others. Students will use a variety of formats to present their work.

I grew up in the beautiful area of Lake Tahoe, Nevada. I came to Texas originally to attend college at Trinity University in San Antonio where I received my Bachelor's degree in history and my Master's degree in Secondary Education. I spent my first two years teaching at the American School of Tampico, Mexico and my third year at the Colegio George Washington in Cartagena, Colombia. I have been at Lanier for three years teaching Texas history in cluster 7C. I am also the IB Coordinator for Lanier. I started a Model United Nations Club here at Lanier and really enjoy taking students to conferences to help resolve and debate current global issues. I love to travel and that is how I usually spend my summer vacations. I have been to Europe, South America, Central America, and China and hope to make it to Turkey and Greece next summer.
